

*Hardness Testers*  
*Rockwell & Brinell LINK RBD*  
*Pro Series*

MPM is an authorized distributor of Hoytom Universal Hardness Testers. MPM provides installation, maintenance, and calibration services for all equipment sold within the USA.

The Link RBD model is a Rockwell hardness tester that is capable of applying loads of 60, 100, and 150 Kg. It also has additional loads for Brinell tests (31.25, 62.5, and 187.5 Kg).

Loads are applied via a motorized system. Loads are easy to select using a rotary controller, and application speed is controlled via motor. Data display is via touch screen.

1. Selectable Rockwell and Brinell loads
2. Load selection via rotary controller
3. Loads applied via motor
4. Resolution: 0.01 HRC/HRB...
5. Conversions between different methods
6. Built-in room temperature thermometer
7. Touch screen
8. USB data output for integration into customer's test program
9. Simple and intuitive operation

### Optional Accessories:

**Brinell Camera**

**Indenters**

**Brinell Magnifier**

**Reference Block**

### Technical Characteristics

Model	Link RB
Preload lb	22
Rockwell loads lb	132 – 220 - 331
Brinell loads lb	68.9 – 137.8 – 413.4
Vertical Capacity in	6.7
Goose Neck (Horizontal) in	6.5
Dimensions (W x D X H) ft-in	0'8x1'8x2'4
Net Weight lb	221
Power Supply V	220

### STANDARDS EN ISO 6508, ASTM E18, ASTM E10
